

The Libertarian Jury Power Fact Sheet or

How Ordinary People can Protect and Restore the Our Rights

Over many years, government officials have routinely weakened the power of jurors to have the final say about how laws are applied to the people.

As free citizens, we have the power and responsibility to protect our rights - and to do all that we can to weaken tyrannical government through the knowledge that as jurors, we have the power to return verdicts against bad laws.

Just Say "No" To Bad Laws

Any law that violates our individual Constitutional rights;
Any law that violates our right to common-sense justice;
Any law that violates the rights of each of us as a person;
Any law that you believe is being misused in a particular case.

In all such instances, you must follow your conscience and return a verdict of not guilty.

Created for the Libertarian Party of Sonoma County by Iloilo Jones,
Executive Director of the Fully Informed Jury Association.
